## DETAILED ACTION

### *Specification*

1. The use of the trademark SPEED SQUARE has been noted in this application. It should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

### *Claim Objections*

2. Claims 1-20 are objected to because of the following informalities: Claims 1, 12, and 20 at line 2 in each claim "said handle T-shaped slot" is confusing since only "a T-shaped slot" has been set forth while "a handle" is initialized later in the claim. Appropriate correction is required.

### *Allowable Subject Matter*

3. Claims 1-20 would be allowed if the objections recited above are overcome.

### *Conclusion*

4. This application is in condition for allowance except for the following formal matters stated above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
